

**Subject: School Teachers' visit at IIM Tiruchirappalli's Campus**

IIM Tiruchirappalli recently welcomed a delegation of school teachers from Tamil Nadu as part of an educational outreach initiative. The purpose of the visit is to recognize the exceptional achievements of teachers from Chennai Corporation Schools who have secured 100% results in the 10th and 12th grade Board examinations during the academic year 2023-24. The institute organized the teachers' visit to showcase its world-class infrastructure, academic offerings, and vibrant campus life.

Prof. V. Gopal, Dean - Academics, and Prof. Saravanan P., Dean - Corporate Relations and Faculty Affairs, personally engaged the teachers and spent two hours discussing the unique features of the institution. They provided an overview of the diverse academic programs, research opportunities, and student-centric initiatives that set IIM Tiruchirappalli apart as a premier management institute in India.

The institute's staff conducted a guided campus tour, offering the visitors a glimpse into the state-of-the-art facilities, including the library, lecture halls, and recreational spaces. This initiative inspired educators to encourage their students to aspire to higher education in globally recognized institutions like IIM Tiruchirappalli.

The visit served as an effective platform to create awareness among the state's school educators about the opportunities and holistic development that IIM Tiruchirappalli provides to its students. It highlighted the institute's commitment to fostering excellence and inclusivity in education.

Such collaborative initiatives resonate with IIM Tiruchirappalli's vision of engaging with the community and promoting the value of quality education across Tamil Nadu.
