Page no: 7, Point No: g	Beam forming microphone array system for 80 Seater classrooms, Minimum of 100 microphone elements has been asked to provide in the tender document. The Vendor requested to change it to 24 microphone elements, since not all brands have 100 microphone elements	Since the microphone is USB based, there should be ' at least 24 Microphone elements in the ceiling tile type beam forming microphone ' instead of 100 microphone elements. (Change in Specification)
	Vendors requested to share the schematics and Layout drawings, if any, to validate the BOQ.	The AV Schematic diagrams and ceiling plan pertaining to 80 and 50 Seaters are placed as Annexure – I & II.
	Required Cables and connectors are not captured in the BoQ, kindly clarify the same.	The Schematic will provide the requirement of cables' length and connectors. Actual requirement will vary depends upon the products/brands. Providing of the required cables and connectors are the responsibility of the bidders. The details are given in the above mentioned Annexures
Page 9; Item h	Microphone array system/ Speakerphone system with high voice capturing capacity for 50 Seater Class rooms. Kindly be specific whether the Institute requires a table microphone or ceiling microphone. Because there is a huge cost difference between both. (Change in Specification)	The vendor has to provide either ' a hanging microphone ' or ' table top speakerphone along with an extension speakerphone & floor stand for both the mics '. In case of table top microphones, two heights adjustable (should be adjustable from 72 cm) premium quality floor stands (02 Nos) shall be provided by the vendor to place the speaker-phones (wooden/steel/custom-made/ready-made).
